

Arts Therapy
Student Progress
Report

To Parents and Guardians: The Progress Report is reflective of your child's area of self-development. The Progress Report is also reflective of the School's Teaching and Learning Philosophy. If you would like to review Settlement Music School's Philosophy, it can be found on our website on the "Info for Students & Parents" page.

Settlement Music School understands that one of the keys to nurturing a motivated learner is to have good communication among Settlement staff, the therapist and the family. Please let us know if any additional communication is necessary to ensure your satisfaction with the program.
